

Who are The FRANK Team?

The FRANK Team specialises in career, entrepreneurship & community education for Generation X & Y. We offer authentic, innovative and fun training programs to help turn peoples ideas and dreams - about careers, businesses and communities - into reality. The FRANK Team is comprised of creative educators and enterprising people who value the real over the fake, people over profit, and making a difference through education.

Our delivery and values result in presentations that have hit the mark with thousands of young people and young professionals. We're straight talkers. We speak from experience not textbooks. And we provide only valuable information: the skills needed to make their ideas a reality.

The FRANK Team was founded in 2001 by young entrepreneur Jessica Kiely. In the past seven years, we have worked with over 30,000 young people in every state of Australia, as well as some overseas. We have worked with hundreds of schools, universities, community groups, industry organisations and all levels of government.
